

Space Program

November 11, 1969

Dear Clinton:

This will acknowledge receipt of your letter of November 1
with reference to the space program.

With regard to the cost of space exploration, I feel we derive
many side benefits from these probes. We have made tremendous
strides in medicine, communications, geology, aeronautics, etc.,
as a result of our space flights. These cannot be computed in
dollars and cents, but we will all be beneficiaries of these
experiments.

As you requested, I am enclosing a photograph of President Nixon
and myself.

Do write again if I can be of assistance to you.

Sincerely yours,

BOB DOLE

Dear Sir:

Why do we spend all our money on space when we have problems down here? Why don't we get everything done down here and then go to Mars or the Moon? Please send me your picture and Mr. Nixon's picture.

Yours truly,

Clinton Bailey
