Dear Bob:

Such material as is enclosed, I do not like.
Are we to have trouble right here in America
with the black man? It would appear that
the negroes are getting impatient, because of their
past treatment. Perhaps they are justified, but
they certainly should remember that quiet re-
sistance gains ground faster than force.

I hope that you are an ambassador of good will
in instructing our Southern friends that progress
must be made quickly in human relations.

Sincerely,
