

Newton, Kan.  
Feb. 1 - 74

Senator Bob Dole:-

I am writing in regard to the energy crisis and we would like to see controls relaxed on all the cars that are "loaded" with smog controls. We feel the state of Kansas doesn't need these and it would be a great saving in gas if we could get them removed during this crisis.

Hoping you will give this consideration, I am,  
yours truly,

Mrs. [REDACTED]
