Ag. Food for Peace

Mr. E. Lee Feller
President
Fellman Associates, Inc.
605 W. Chicago Street
Coldwater, Michigan

Dear Mr. Feller:

Thank you for your letter of March 13, and please accept my apologies for being so tardy in acknowledgement.

I have had occasion to review the material you enclosed, and first I want to congratulate you on your excellent record in working toward the improvement of food distribution techniques in many areas of the world.

I have read the annual grain losses to rats and other spoilage in India always exceeds the food-aid shipments to that unhappy land. Certainly you are correct in suggesting this area of commitment has been woefully ignored in the emerging nations. Food for Peace, AID, and the emerging nations themselves must commit greater resources to the attainment of more efficient food distribution.

Do continue to give me the benefit of your views on a more successful War Against Hunger. No one should rest until that war is won.

Sincerely yours,

BOB DOLE
Member of Congress
