

Hillsboro, Kans. Sept. 18, 1971

Senator: Bob Dole
Washington, D. C. 20510
2327 New Senate Office Bldg.,
202-225-6521

RECD SEP 21 1971

3/2 J. Ford

Dear Senator Dole:

Just finished reading the article in the Wall Stree Journal dated Sept. 17, 1971, in which it stated the United States have definitely decided to vote and seat "Red China" into the United Nations.

If this happens I will have lost all faith in our Government, as well as the United States Senate and Congress.

I have repeatedly contributed to the organization "Committee of One Million" and am again supporting it today with my contribution. This committee has the courage to state the facts and the ultimate outcome should Red China be seated and voted into the United Nations, as well as prove the records of the present rulers of Red China.

If the Republic of China were voted out of the ~~United~~ Nations, it would be another catastrophe and eventual take over by the commust Red China government, and further loss of our Ally.

Why does our government only look to the principle of the dollar value and trade with such a Communist country, of two-faced liars? instead of our keeping faith and word with our Ally of Formosa?

We've made our biggest mistakes at the time of World War II, when our then Pres. F.D.R. sold us down the river at the time of the Yalta conference in 1944, also at the time of final settlement at the end of World War II, giving uncle Joe the right of way and the privilege of a disastrous settlement as to the partitioning of our World War II gains in Europe to end all wars. All this to the thanks of former Pres. Harry S. Truman and his supposedly able Secretary of State, Mr. Steettinius. The again in 1961 when we again let the Soviets completely take over our next door Soviet controlled-Cuba, all due to the reluctance of giving our help to the counter rebellion of the Communist Mr. Castro and his horde.

One of the near years, we will find our country and all of our freedom taken away from us, all due to the fact we have forgotten to appreciate this freedom, only to have our Government looking for greener fields of an better economy.

I have always believed your sincere effort, ever since the time it was my pleasure to meet you and hear your campaign talk at our Golf Country Club here in Hillsboro, also your successful election to the Senate. I trust you will give every effort now and in the future to help me realize "Bob Dole" is the type of man that you still are the Kansas Senator, we are proud of.

Yours most sincerely,

[Redacted signature]

Red China

[REDACTED]
312 East Grand
Hillsboro, Kansas

Dear [REDACTED]

This will acknowledge and thank you for your letter of September 18, expressing your concern over recent diplomatic overtures to Mainland China.

It is my feeling that President Nixon has made considerable progress in improving international relations and in breaking down barriers to the achievement of a lasting world peace. I believe his planned visit to Mainland China will greatly improve chances for world peace and is a realistic facing up to the world situation as it exists today. We cannot achieve a true world peace excluding that Nation with over one-fourth of the world's population and which has the potential of soon becoming a major nuclear power.

Although I recognize there is concern in some quarters over the President's visit to China, I believe that two points will help keep it in proper perspective. First, the President approaches to world peace and to peace in Vietnam have been conciliatory, but not weak or timid. He has not made the mistakes of some recent Presidents in offering concessions before they were sought or in promising more than can reasonably be expected. Second, President Nixon has not made this move at the expense of the independence of Nationalist China. He continues to live up to our national commitments.

Trust this will give you a clearer understanding of the President's reasons and of my reasons for supporting him in these efforts. If I may be of assistance at any time, please let me know.

Sincerely yours,

BOB DOLE
United States Senate
