

Berlin, Germany
17 July 1971

The Honorable Robert J. Dole
Senate Office Building
Washington, D. C. 20510

Dear Senator Dole,

I have just heard that President Nixon is planning to visit Red China.

Communist China, as you know, are the main supporters of and providers of war material to North Vietnam and the Viet Cong who are killing Americans in South Vietnam. For him to travel to China would be a terrible blow to the servicemen who are in South Vietnam or to those of us who were there but particularly to the families of the more than 45,000 men who have been killed there.

His scheduled trip would indicate a position of weakness and an admission to the world that the United States cannot defeat communism and to survive, we must negotiate with those most evil men.

Can you imagine the affect his visit will have on the enslaved peoples of the world who have felt that someday, the great United States would come to their aid? Picture yourself, if you will, under communist domination and dreaming of the day when the United States would overthrow your slavemasters and free you. How would you feel if you saw a picture in the newspaper of President Nixon and Mao Tse-tung all buddy-buddy in China? You would probably say, "What's the use in even trying anymore? We'll get no help from America."

Naturally, the communist inspired, organized and dominated United Nations are all for the trip ~~for~~ they feel that it will pave the way for the admission of Red China into the UN and they have all along wanted their bloody buddies in there with them.

When and if Red China becomes a member, this country will be flooded with narcotics which they will bring in under the cover of diplomatic immunity and they will try to complete the job they have started of addicting our youth. Narcotics problems have increased in Canada since their recognition of Red China and it will happen here also.

I encourage you, Senator Dole, to use your influence to dissuade President Nixon ~~for~~ ^{from} visiting Red China or any other communist country.

You might remind the president that the butchers of Red China still have American prisoners of war from the Korean War.

Dear ██████████:

This will acknowledge your letter of July 17th relative to President Nixon's speech on Red China. The announcement of a forthcoming visit has in no way changed American foreign policy and the outcome of such a visit should not be pre-judged.

I am taking the liberty of enclosing a copy of the reactions of many who are well versed in international affairs which I hope will alleviate your immediate fears.

President Nixon has the respect of leaders of nations abroad which his two Democrat predecessors lacked. Never has the United States had a President so uniquely qualified both by experience and background as President Nixon. I have great confidence in his efforts toward insuring peace not only for our generation but for generations to come.

Sincerely,

BOB DOLE
