

Congressman Bob Dole
Washington D. C.

Dear Mr. Dole:

Please allow me to break in on your busy time. There are so many things on my heart that I would want to discuss with you.

I am the pastor of the First Baptist Church in Wilson, Kansas. Our people are conservatives and we appreciate your stand. We hope that you will continue to stand for the old traditional way of Americanism.

Mr. Dole we don't want the UN to remain in this country, it is just a hiding place for spies, its policies are everywhere against us.

We don't want any cut in taxes unless spending is cut correspondingly.

We don't want any of Kennedy's "medicare".

We are against the muzzling of the voice of patriotism and conservatism. The latest is that Dr. Carl McIntire of the 20th Century Reformation Hour radio Broadcast is to be called on the carpet for his utterances against the UN and the National Council of Churches.

This man should be heard by every freedom loving American.

We do not want the House Committee on Un-American Activities abolished, we want it strengthened.

We want the Cuban debacle investigated and a stop put to Castro.

Congressman Dole, we are depending on you as our representative to oppose the socialistic and "One World" activities and trends of this administration.

May our God give you the wisdom and the courage to stand up and be counted. We are back of you to the limit.

Respectfully, and with best personal regards.

John Kejr, Jr.

120-7
Cuban
situation

Rev. John Kejr, Jr.
First Baptist Church
Wilson, Kansas

Dear Rev. Kejr:

Thanks so much for your letter of February 1 with reference to many of the issues of great importance facing Congress and the nation at the present time.

Noted your comments with reference to my conservative stand, and I have no hesitation telling you I propose to continue this approach to the grave problems that face us at this time.

The proposed tax reduction is both irresponsible and a great disservice to this country. This is especially true when viewed in the light of the enormous budget the President has just sent to Congress. Everyone should know the consequences of living beyond one's budget, and certainly this applies equally to the federal government.

You have perhaps heard in recent days that there is increasing sentiment in the Senate for an investigation of the Cuban fiasco. In fact, Senator Stennis, chairman of the Senate Preparedness Subcommittee, has stated in the last couple of days that the American people have not been told the truth about this incident. In my opinion, a thorough airing of all aspects of this very serious situation should be completely looked into and the American people given the truth.

It was nice hearing from you, and I hope you will continue to give me the benefit of your thoughts on important issues coming before Congress from time to time.

Sincerely yours,

BOB DOLE, M. C.
