Congressman Bob Dole
243 Cannon House Office Building
Washington, D. C.

This is to assure you we are appreciative of the interest you are showing for each individual as our congressman.

We feel President Johnson needs to be encouraged to reconsider his recommendations for the school milk and lunch program. An example is the case of rural students attending our local schools. We are transporting approximately two hundred seventy-seven students in from the rural area. Some of these students board the bus quite early and benefit from our milk program during the morning. It is needless to say that a hot lunch at noon consisting of a balanced meal is an aid to better school work.

Each of us has taught school and feel any program that will aid the educational benefits of our youth is worthy of consideration.

211 So. Buffalo

[REDACTED] [REDACTED] [REDACTED]
This will acknowledge your letter expressing your concern over President Johnson's action in reducing the 1967 budget item for the school milk and lunch program.

I certainly share your concern over this action and have introduced legislation which would make the present milk program permanent and would continue to make it available to children on the broadest practical scale. A copy of my bill and a statement in the Congressional Record at the time it was introduced are enclosed for your information. If you should have any questions or if I may be of assistance in some other way, do let me know.

Sincerely yours,

ROB DOLE
Member of Congress
