Dear [REDACTED]

Thank you so much for your kind words of congratulation - and I shall certainly try to keep up the good work done by Senator Carlson.

In the last session the Rogers and Javits bills were identical but so far this year they have not been re-introduced and I do not know what form they will take. Senator Javits informs me that his bill is under study. He has not asked any of us to cosponsor the bill yet, and of course the choice is his, not mine. As you know, I cannot cosponsor a House Bill, since I am not a member of that body. However, I have always supported legislation for the protection of laboratory animals, and you may be certain that I shall continue to do so.

I appreciate hearing from you, and hope that you will continue to advise me of your views on the important matters facing us here in Congress.

Sincerely yours,

BOB DOLE
United States Senate

BOB DOLE

Senator Robert Dole,
Senate Office Building,
Washington, D.C.

Dear Senator Dole:

Congratulations on your election to the Senate. Now we know the good work of Senator Carlson will be continued.

May I remind you that the Rogers bill, HR 13168 is being reintroduced? Will you please have your name put on the bill as CO-SPONSOR?

Also the Javits bill, S. 2481 (identical to the Rogers bill) will be reintroduced. Will you please call Senator Javits' office and ask that your name be added to the bill.

The purpose of both bills is to reduce animal suffering and the number of animals used.

I don't think our pets were meant to be experimented on.

Good Luck on your new job, and keep up the good work.

Yours truly,
